ISSUE 002 | JANUARY 2022

BECAUSE WE DO IT RIGHT

## FROM THE DIRECTOR'S DESK

A happy new year from us all at Gas Africa! We trust you enjoyed the festivities over the Christmas period and are ready to hit the ground running for what we hope shall be a rewarding year for all of our stakeholders

I'd like to take this opportunity to thank you for your continued confidence in Gas Africa as your partner in medical, industrial, domestic gases and liquids

At the end of the prior year, we sent out Customer Survey forms – a chance for us to understand and serve our clients better

We look forward to going through your feedback and implementing some suggestions that would really generate value in your operations

In the first edition we mentioned, we source and supply hospital equipment's and accessories. Please do make time to go through our website and the range we have to offer. If your healthcare facility is looking to replace aged equipment's or indeed you are constructing a whole new wing, Gas Africa would like to be part of your growth just a quick update on domestic LPG. We have moved from our pilot area in Kitengela to supply into the neighboring regions, Mlolongo and Athi River. Local businesses are experiencing an upsurge in demand for our cylinders despite challenges in the fuel sector. Long may it continue – #ChooseBlue

Now to some exciting news – a Kenyan first! Introducing Oxypro – a lightweight portable can that contains Oxygen that can be used to supplement your lifestyle and aiding in recovery, health and performance. See Q-Focus

Delivery of our vision of being the leading providers of gas solutions in Africa can only be made possible with consideration of and our commitment to Safety, Health, the Environment and, of course, Quality - refer to our SHEQ policy on the website. Taking no shortcuts on any of these components form the foundation of a sustainable Gas Africa that shall be serving you in healthcare, industry and domestically

We wish you a successful 2022 and very much look forward to working together in delivering your vision - Rajesh Ram, Managing Director

## Q - FOCUS

Benefitting from being 100% natural and with a purity >99%, we bring to you our latest innovation – Oxypro. This canister contains 5L of compressed oxygen equivalent and can give approximately 100 breaths for high altitude relief, enhancing performance during physical workouts and aiding in faster recovery

No prescription required, so ask for Oxypro at your nearest chemist and hospital pharmacy

Experience improved health and wellness as you enjoy Oxypro vitality!

Make each breath count

#Health #Recovery #Performance

## COMMUNITY ENGAGEMENT

In recognition of one of our core products being Oxygen, our CSR initiatives included tree growing in Karura forest (with the plantation and management of indigenous species) alongside the promotion of eco-friendly day-to-day operations targeting minimum carbon footprint

## DID YOU KNOW

Gas Africa is licensed by EPRA to supply LPG for commercial use in hospitals, industry and hospitality in 50kg cylinders as well as offering the installation of LPG reticulated piping system

## TALK TO US

- 📍 Gas Africa Limited. Athi River Road, Off Addis Ababa Road, Off Enterprise Road - Nairobi, Kenya
- ☎ Telephone: +254 (0) 733 999 191
- ✉ E-mail: [info@gasafrica.com](mailto:info@gasafrica.com)
- 🌐 Web: [www.gasafrica.com](http://www.gasafrica.com)

Quality should never be limited to the product alone. It is the service and the customer experience that adds great value to our clients

This quarter the focus is very much on internal training sessions upskilling our teams' product knowledge – from production, filling, safe handling to delivery at site

In challenging times, we need to hear your valuable feedback to continue offering tailored solutions to your needs

**Josephat Nyabuti**  
Quality Assurance Manager
